

SOCIAL DISTANCING IN THE WASHROOM

Opaque white disposable urinal and basin covers, the unique solution to maintaining SOCIAL DISTANCING in the washroom.

Due to the current COVID-19 pandemic alternate urinals and basins need to be put out of service to ensure that social distancing is practiced in the washroom

By covering these fixtures, you can ensure that they are not used but also that they are kept clean for when they are needed again.

Each JaniWrap kit contains:

- One roll of 32 self-cling disposable covers, each 500 x 700mm
- 32 standard NOT IN SERVICE labels
- 32 NOT IN SERVICE DUE TO SOCIAL DISTANCING labels

Each kit comes in its own durable storage tube that keeps the covers in perfect condition until required, stores easily on a cleaning trolley. The covers fit urinals, toilets, basins...the uses are many, can even be used to cover self-service checkouts, cash points...and more.

It is simple to apply – lay over, pull taut, fold around. Can be trimmed to size for best effect.

Easily removed when the facility can be used again.
